

BHUVANSHU SINGH

Software Developer

bhuvanshusingh@gmail.com • www.linkedin.com/in/bhuvanshu-singh • <https://github.com/bhuvanshu> • Alwar Rajasthan

OBJECTIVE

Final-year BCA student with skills in Java, Spring Boot, SQL, and machine learning. Experienced in developing data-driven applications and backend systems through academic projects. Seeking an entry-level software development role to apply programming, problem-solving, and software engineering skills.

EDUCATION

Swami Rama Himalayan University

Bachelor of Computer Applications (CGPA: 8.3/10)

Rajasthan University of Health Sciences

Diploma in Pharmacy

Dehradun, Uttarakhand

07/2023 - 07/2026

Alwar, Rajasthan

07/2020 - 01/2023

SKILLS

- **Programming:** Java, Python, SQL
- **Frontend Development:** HTML, CSS3, JavaScript (Basic)
- **Backend Development:** Java, JDBC, REST APIs, Spring Boot
- **Data Analysis & Machine Learning:** Pandas, NumPy, Matplotlib, Scikit-Learn
- **Tools & Cloud Platforms:** Git & GitHub, VS Code, IntelliJ IDEA, Vercel, Render, Railway

CERTIFICATION

- Java, Spring Boot, Spring AI-Gen AI - *Udemy*
- Git and GitHub: Mastering Version Control – *Internshala Trainings*
- Python 3.4.3 training— *SINE, IIT Bombay*
- AI Essentials—*Applied AI Institute of Europe*
- Designing Web Pages Using HTML and CSS— *Internshala Trainings*

ACHIEVEMENTS

- Selected as *IT Analyst* at *HCL Technologies* through campus placement drive.
- Competed in *IEEE Xtreme 19.0*, a 24-hour international competitive programming challenge.
- Completed Basic & Advanced Mountaineering Courses under *Indian Army* Officials from *NIM*.

PROJECTS

Intelligent Student Mental Health Assessment and Analytics System (Final Year Project)

Tech: Python, Flask, Scikit-learn, Pandas, NumPy, Matplotlib, Java, Spring Boot, REST APIs

- Developed machine learning models to analyze student mental health risk factors using academic, demographic, lifestyle, and psychological data.
- Built a Flask-based AI service to expose machine learning predictions through REST APIs.
- Integrated the Flask AI module with a Java Spring Boot backend to enable communication between machine learning models and application services.
- Designed the foundation for an institutional analytics platform to support data-driven decision-making.
- Deployed frontend on Vercel, backend on Render, and database on Railway.

Personal Portfolio Website (Web Project)

Tech: HTML, CSS, JavaScript, Java, Spring Boot, MySQL

- Developed a responsive portfolio website to showcase projects, technical skills, and professional information.
- Built a Spring Boot backend to process and manage contact form submissions through REST APIs.
- Integrated a MySQL database for persistent storage and retrieval of user messages.
- Developed an admin console to view, manage, and monitor contact requests received through the website.

PUBLICATIONS

- A Multi-Domain Machine Learning Framework for Depression Risk Screening in College Students Using Correlation Mapping and PCA.
